"BASES" OF ACCOUNTINGCASH Basis

Transactions are recorded in the Books on cash being received or paid.

ACCRUAL BASIS

Transactions are recorded in the books when they are incurred, whether cash is received/paid or not.

RENT = 1,00,000 p.m

10 month → pay (✓)

₹ 10,00,000

1,00,000 × pay (x)  
1,00,000 ×

₹ 200,000

आ रहा है      आ रहा है  
income = Revenue (-) expense

**Illustration 3.**

Michael gives following information about his income and expenses for the year ended 31st March, 2021:

|                                                     |            | Next year     | ₹                 |
|-----------------------------------------------------|------------|---------------|-------------------|
| Expenses paid                                       | Cash आया   |               | 1,60,000          |
| Expenses paid in advance (included in ₹ 1,60,000)   | advance    | Accrual → NO  | 40,000 (-)        |
| Expenses not yet paid (Outstanding)                 | → Cash आया | Accrual → YES | 20,000 (+)        |
| Income received                                     |            |               | 2,40,000          |
| Income received in advance (included in ₹ 2,40,000) | advance ₹  | Accrual → NO  | 30,000 (-) deduct |
| Income not yet received (Accrued Income)            | Profit     | Accrual → YES | 24,000 (+) Add    |

Determine his income if he adopts (i) Cash Basis of Accounting, and (ii) Accrual Basis of Accounting. (profit)

Sol:-

(i) Cash Basis

Cash आया

Cash आया

$$\begin{aligned}
 \text{Income} &= \text{Revenue} - \text{Expense} \\
 &= 240,000 - 160,000 \\
 &= \mathbf{80,000}
 \end{aligned}$$

(ii) Accrual Basis

$$\begin{aligned}
 \text{Income} &= \text{Revenue} (-) \text{Expense} \\
 &= 234,000 (-) 140,000 \\
 &= \mathbf{94,000}
 \end{aligned}$$

$$\begin{aligned}
 &240,000 - 30,000 + 24,000 \\
 &160,000 (-) 40,000 \\
 &20,000 (+)
 \end{aligned}$$

eg :-

80000  
(-) 5000  
(+) 10000

Rent paid ₹ 80,000

Prepaid Rent included in ₹ 80,000 is ₹ 5,000 (-) <sup>advance</sup>

Outstanding Rent → ₹ 10,000 (+)

Income received ₹ 165,000 (including advance ₹ 15,000)

Find profit (i) Cash Basis = 165000 - 80000 = 85,000

(ii) Accrual Basis 150000 (-) 85000

= 65,000

\* Outstanding expense.

expense incurred but not paid

Cash Basis : Record (x)

Accrual Basis : Record (✓)

pay नहीं करा  
But देना चाहिए

\* Prepaid expense

expenses that have been paid in advance

Cash Basis : Record (✓)

Accrual Basis : Record (x)

इस साल का Rent है?

pay कर दिया advance है

(पैसे दे दिए पर देने नहीं चाहिए)

Rent 2024

\* Accrued Income

Income earned during the year but not received.

Cash Basis : Record (x)

Accrual Basis : Record (✓)

₹ ₹ ₹ 1,000  
income मिलनी चाहिए पर मिला नहीं.

\* Income received in advance

income which has been

₹ ₹ ₹ class 12th.  
पैसे मिले

income which has been  
received before it has  
been earned

पैसे मिलने  
पर मिलने  
नहीं चाहिए

Cash Basis : Record (✓)  
Accrual Basis : Record (x)

#### Illustration 4. IMP.

From the following information, determine the profit earned or loss incurred when (i) Cash Basis of Accounting is followed, and when (ii) Accrual Basis of Accounting is followed:

|                                                        | Revenue                      | Expense                |
|--------------------------------------------------------|------------------------------|------------------------|
| Cash Sales                                             | ₹ 5,00,000                   |                        |
| Credit Sales                                           | Accrual (Revenue) - 2,00,000 |                        |
| Outstanding Salary and Wages                           |                              | 4,000                  |
| Insurance Paid in Advance                              |                              | 2,500                  |
| Outstanding Electricity Expenses                       | Accrual - 1,000              |                        |
| Income Received (excluding income received in advance) | 5,000                        |                        |
| Income Received in Advance                             | Accrual - 1,000              |                        |
| Income Earned but not Received (Accrued Income)        | Accrual - 3,000              |                        |
| Cash Purchases                                         |                              | 2,75,000               |
| Credit Purchases                                       | Accrual = 1,25,000           |                        |
| Salary and Wages Paid                                  |                              | 44,000                 |
| Electricity Expenses Paid                              |                              | 11,000                 |
| Insurance Expenses Paid (including prepaid)            |                              | 10,000                 |
|                                                        |                              | 10,000 - 2,500 = 7,500 |

Sol:- Cash Basis

$$\begin{aligned}
 \text{profit} &= \text{Revenue} (-) \text{Expense} \\
 &= 5,00,000 (-) 3,40,000 \\
 &= 1,60,000 \quad (✓)
 \end{aligned}$$

Accrual Basis

$$\begin{aligned}
 \text{profit} &= \text{Revenue} (-) \text{Expense} \\
 &= (5,00,000 + 2,00,000 + 5,000 + 3,000) - (4,000 + 1,000 + 2,75,000 + 1,25,000 + 44,000 + 11,000 + 7,500) \\
 &= 7,08,000 - 4,67,500 \\
 &= 2,40,500 \quad (✓)
 \end{aligned}$$

Sol:- Income = Revenue - expense      expenses paid = 40,000

$$\begin{aligned}
 &= 90,000 - 40,000 \\
 &= 50,000
 \end{aligned}$$

Sol:- Income = Revenue - expense expenses paid = 10,000

$$= 90,000 - 40,000 = 50,000$$

✓ During the financial year 2020-21, Mohan had cash sales of ₹ 90,000 and credit sales of ₹ 60,000. His expenses for the year were ₹ 70,000 out of which ₹ 30,000 is still to be paid. Find out Mohan's income for 2020-21 following the Cash Basis of Accounting.

Accrual Basis :- Income = 150,000 (-) 70,000 = 80,000 [Ans.: ₹ 50,000.]

✓ Taking the figures given in Q. 6, find out the net income according to Accrual Basis of Accounting. [Ans.: ₹ 80,000.]

✓ Vijay, a consultant, during the financial year 2020-21 earned ₹ 4,00,000. Out of which he received ₹ 3,50,000. He incurred an expense of ₹ 1,70,000, out of which ₹ 40,000 are outstanding. He also received consultancy fee relating to previous year ₹ 45,000 and also paid ₹ 20,000 expenses of last year → Accrual (X) ← paid expense = 130,000

You are required to determine his income for the year if

- he follows Cash Basis of Accounting, and
- he follows Accrual Basis of Accounting.

[Ans.: (i) ₹ 2,45,000; (ii) ₹ 2,30,000.]

Sol:- Cash Basis

$$\begin{aligned} \text{Income} &= \text{Revenue} - \text{expense} \\ &= (350000 + 45000) - (130000 + 20000) \\ &= 395000 - 150,000 \\ &= 245,000 \end{aligned}$$

Brain

Accrual Basis

$$\begin{aligned} \text{Income} &= \text{Revenue} - \text{expense} \\ &= 400,000 - 170,000 \\ &= 230,000 \end{aligned}$$

| Basis                                                                                      | Accrual Basis of Accounting                                                                                                                                                                                       | Cash Basis of Accounting                                                                                                                                                                         |
|--------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. <u>Nature of Transactions</u>                                                           | Both <u>cash</u> and <u>credit</u> transactions are recorded.                                                                                                                                                     | <u>Cash</u> transactions are recorded.                                                                                                                                                           |
| 2. <u>Prepaid/Outstanding Expenses</u><br><u>Accrued Income/Income Received in Advance</u> | Prepaid and outstanding expenses are accounted in the <u>Profit and Loss Account</u> . <u>adjust.</u><br>Accrued income and income received in advance are also accounted and shown in the <u>Balance Sheet</u> . | Prepaid and outstanding expenses are <u>not adjusted</u> . Similarly, accrued income and income received in advance are <u>not adjusted</u> .                                                    |
| 3. <u>Profit or Loss</u>                                                                   | <u>Correct profit or loss</u> is ascertained because it records both cash and credit transactions.                                                                                                                | Correct profit or loss <u>is not ascertained</u> because it records only cash transactions.                                                                                                      |
| 4. <u>Technical Knowledge</u>                                                              | The Accrual Basis of Accounting <u>requires technical knowledge</u> as many adjustments like prepaid, outstanding, capital and revenue are required to be made.                                                   | It <u>does not require</u> much of technical knowledge as is required for Accrual Basis of Accounting.                                                                                           |
| 5. <u>Legal Position</u>                                                                   | Accrual Basis of Accounting is <u>recognised by the Companies Act, 2013</u> .                                                                                                                                     | Cash Basis of Accounting is <u>not recognised</u> by the Companies Act, 2013. <u>draft</u>                                                                                                       |
| 6. <u>Acceptability</u>                                                                    | Accrual Basis of Accounting is <u>more acceptable</u> in business as it reveals correct income and expense besides assets and liabilities.                                                                        | Cash Basis of Accounting is <u>not acceptable</u> in business as it does not reveal the required information.                                                                                    |
| 7. <u>Reliability</u>                                                                      | Accrual Basis of Accounting is <u>more reliable</u> as it records both cash and credit transactions and thus, reveals correct profit or loss besides assets and liabilities.                                      | Cash Basis of Accounting is <u>less reliable</u> as it records only cash transactions and as a result does not reveal correct profit or loss and also assets and liabilities.                    |
| 8. <u>Suitability</u>                                                                      | Accrual Basis of Accounting is <u>suitable for businesses</u> as it requires <u>information that is complex</u> . It can be made available by Accrual Basis of Accounting.                                        | Cash Basis of Accounting is suitable for Not-for-Profit Organisations and Professionals such as chartered accountants, lawyers, etc., since they require comparatively <u>less information</u> . |

as it requires information that is simple. It can be made available by Accrual Basis of Accounting.

For organizations and professionals such as chartered accountants, lawyers, etc., since they require comparatively less information.
